EDUCATION

University of California, San Diego

Summer 2026

B.S. Mathematics-Computer Science

Relevant coursework: Data Structures, Algorithms, Data Science, Statistical Inference

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C++, Java

Frameworks & libraries: React, React Native, Node.js, Express, Jest

Tools & data: Git, GitHub, Vite, Apple HealthKit, Supabase, PostgreSQL, Xcode, ESLint

PROJECTS

Step Accountability | React Native, TypeScript, HealthKit, Express, PostgreSQL

- Built an iOS step-tracking app using Apple HealthKit with daily progress, seven-day history, goal completion, and consecutive-day streaks.
- Implemented seven-day synchronization to a Node.js/Express API backed by Supabase PostgreSQL, with automatic refresh when the app becomes active.
- Persisted daily goals on device and updated completion across Home and History; calculated streaks while accounting for an unfinished current day.
- Added an 8 p.m. local reminder and Jest coverage for streak edge cases; verified the app with TypeScript and ESLint and documented setup, architecture, and limitations.

github.com/tonytran04/Step-Accountability

Job Application Tracker | React, TypeScript, Vite

- Built a personal web app to manage job applications with editing, status updates, search, filters, application dates, notes, job links, and a status dashboard.
- Implemented browser storage and JSON backup export/import with runtime input validation, duplicate-ID handling, and save-failure alerts; passed TypeScript build and ESLint checks.

EXPERIENCE

Pho Play | Food Runner / Host / Busser

Jul 2021 - Dec 2021

Castro Valley, CA

- Coordinated with servers and kitchen staff to deliver accurate orders during busy shifts.
- Assisted guests with seating and requests while working across front-of-house roles to keep service moving and maintain an organized dining area.

AWARDS & TEAMWORK

UC San Diego Collegiate VALORANT | Team Member

- Collaborated with teammates for four years in regional and national competition, strengthening communication, adaptability, and accountability under pressure.

2025 UCEI VALORANT Champion; 1st place, 2026 Genius League Collegiate Cup.

3rd place, 2026 NECC Nationals Division I; 2nd place, 2025-2026 College VALORANT West.
